

Adherence to Hospital Discharge Medications* vs. Cardiac Events** through 6 mos after Cardiac Surgery

Congestive Heart Failure

- ◎ 900,000 admissions a year
- ◎ 27% hospital readmission rate
- ◎ Current form of adherence: manual pill counting

A decorative graphic in the top-left corner consisting of a network of interconnected nodes and lines. The nodes are represented by circles of varying sizes and colors (grey, blue, white), connected by thin grey lines. The network is dense and extends from the top-left towards the center of the page.

\$40 Billion

Rehospitalization costs per year

A decorative graphic in the bottom-right corner, mirroring the style of the top-left graphic. It features a network of interconnected nodes and lines, with nodes represented by circles of varying sizes and colors (grey, blue, white), connected by thin grey lines. The network is dense and extends from the bottom-right towards the center of the page.

Heardio Timeline

A network diagram background consisting of interconnected nodes and lines. The nodes are represented by circles of varying sizes and colors, including grey, blue, and white. Some nodes are highlighted with a blue outline. The lines connecting the nodes are thin and grey, creating a complex web-like structure. The diagram is positioned in the corners of the page, with the top-left and bottom-right corners showing more of the network, while the center is dominated by the text.

Heardio:
Right Dosage.
Right Person.
Right Time.
